ACKNOWLEDGEMENTS

The preparation of this Inspire enhanced document would not have been possible were it not for the individual and collective efforts of several key people:

Phyllis Land Usher, Assistant Superintendent, Indiana Department of Education Center for School Improvement and Performance for her vision; Dorothy Winchester, IDOE Director of Program Development and Lynn Soskel Davis, Training Coordinator, Division of Human Resources for their collaborative efforts; Nancy McGriff, Vickie Thomas, Mary Watkins, and Marge Cox, Indiana Association of Media Educators members for their direction, leadership, and professional expertise. INCOLSA's support of these "INSPIRED Correlations" was critical to their completion.

Classroom teachers and library media specialists shared their expertise for this document. Their work to impact instruction through the Indiana Academic Standards, Correlations and INSPIRE will be appreciated by thousands of students and teachers. The following people gave of their time and talents to complete these "INSPIRED Correlations".

Marge Cox, Chairperson, Media Services Director, Noblesville Schools, Noblesville, IN
Rick Jones, Co-Chairperson, Library Media Specialist, Eastbrook Junior/Senior High School, Marion, IN

Emily Boerger, Glenn Acres Elementary School, Lafayette, IN
Sandy Brown, Allisonville Elementary School, Indianapolis, IN

ACKNOWLEDGMENTS

The preparation of this document would not have been possible were it not for the individual and collective efforts of several key people.

The leadership role and encouragement of Phyllis Land Usher, Assistant Superintendent, Center for School Improvement and Performance provided the vision, impetus, and funding for the project from the first contact by the Association of Indiana Media Educators (AIME) leadership until completion of the first phase of this project.

Nancy McGriff, working as a member of the SLMS Cadre and the initial AIME Committee, carried the responsibility for developing the framework and assembling the personnel to develop the document. During the 2001-2002 academic year, Vickie Thomas and Mary Watkins, members of the SLMS Cadre and state AIME chairpersons, assumed the leadership role with the correlations for music, physical education, social studies, and visual arts. The key members of the SLMS Information Literacy Standards Task Force involved in the entire process of actual reading, writing, and editing of the correlation document are:

Mary Nic Harvey, Chairperson, School Library Media Specialist, retired, Westview Elementary School, Richmond, IN
Danelle Jentges, School Library Media Specialist, Julia E. Test School, Richmond, IN
Michelle Knecht, Art Teacher, Fall Creek Intermediate School, Fishers, IN
Brenda J. Wampler, Art Teacher, Ellettsville Elementary School, Ellettsville, IN

Special recognition for their generous contribution in time and encouragement are extended to Dorothy Winchester, IDOE Director of Program Development; and Sarah Fronczek, Fine Arts Consultant.

INDIANA INFORMATION LITERACY STANDARDS FOR STUDENT LEARNING

The Indiana Department of Education, Office of Learning Resources, supports the need for the Indiana Academic Standards 2000 to address student library information literacy standards. Charged with this task, the School Library Media Specialists' (SLMS) Cadre Information Literacy Task Force Committee, a collaborative committee of members of the Indiana Department of Education's Technology Leadership School Library Media Specialists and the Association of Indiana Media Educators (AIME), developed a correlation document. It correlates to the Nine Information Literacy Standards developed by the American Association of School Librarians (AASL) and the Association for Educational Communications and Technology (AECT) into Indiana's Academic Standards for Visual Arts Standards.

A copy of this document, Correlation of the Information Literacy Standards and the Indiana's Visual Arts Standards is available at www.doe.state.in.us/olr.

Purpose of the Correlation of Library Information Literacy Standards and Indiana's Academic Standards for Visual Arts

The mission of the school library program as stated in Information Power: Building Partnerships for Learning (1998) is to "ensure that students and staff are effective users of ideas and information."

The Correlation of the Information Literacy Standards and Indiana's Academic Standards for Visual Arts identifies the School Library Information Literacy Standards in the newly adopted Indiana's Academic Standards for Visual Arts. SLMS will use these standards to work cooperatively with the building principals, classroom teachers and other professional staff members to insure that student library information literacy standards are taught through a collaborative effort in all curricular areas.

Indiana Legal Requirements for School Library Media Program

The Indiana Administrative Code, 511 IAC 6.1-5.6 Media Program delineates the minimum requirements for a school library media program:

Sec. 6. All schools shall have a media program that is an integral part of the educational program. A licensed media specialist shall supervise the media program. Each school shall spend at least eight dollars (\$8) per student per year from its 222000 account to maintain its media program. (*Indiana State Board of Education; 511 IAC 6.1-5.6; filed Jan 9, 1989, 11:00 a.m.: 12 IR 1192*)

Relationship Between Reading Improvement and School Library Media Program

The direct relationship between reading improvement and an active school library media program staffed by a licensed professional librarian is substantiated by research studies released within the past two years in Colorado, Pennsylvania, and Alaska. [These published studies include: How School Librarians Help Kids Achieve Standards; the Second Colorado Study (April 2000); Information Empowered; The School Librarian as an Agent of Academic Achievement in Alaska Schools (1999); Measuring Up to the Standards; The Impact of School Library Programs and Information Literacy in Pennsylvania Schools (February 2000).]

A Study of the Differences Between Higher-and Lower-performing Indiana Schools, a study by NCREL commissioned by Superintendent of Public Instruction, Dr. Suellen Reed, was published in February 2000. The study reports one necessary component to increase student performance in lower-performing schools is to “increase student access to instructional and print materials in lower-performing schools, including regular and flexible access to a working library.”

In this context, a working school library with flexible access is open during the regular school hours, is staffed by a professional, licensed school library media specialist, and provides for open and easy access by individual students. Using best practices supports the use of collaboratively planned units involving the classroom teacher and the school library media specialist (SLMS). Dr. David V. Loertscher in Reinventing Indiana’s School Library In the Age of Technology; A Handbook for Principals and Superintendents states that the library collection shall contain the “right materials for the right learners at the right time in every format available” to support curriculum and recreational reading needs. Through the use of Library Information Literacy Standards, teachers and SLMS work cooperatively to plan, teach, and assess the progress of students’ learning.

THE NINE INFORMATION LITERACY STANDARDS FOR STUDENT LEARNING

Information Literacy

The student who is information literate

- ILS 1: **accesses information** efficiently and effectively.
- ILS 2: **evaluates information** critically and competently.
- ILS 3: **uses information** accurately and creatively.

Independent Learning

The student who is an independent learner is information literate and

- ILS 4: **pursues information** related to personal interests.
- ILS 5: **appreciates** literature and other creative expressions of **information**.
- ILS 6: strives for excellence in information seeking and knowledge generation (**generates knowledge**).

Social Responsibility

The student who contributes positively to the learning community and to society is information literate and

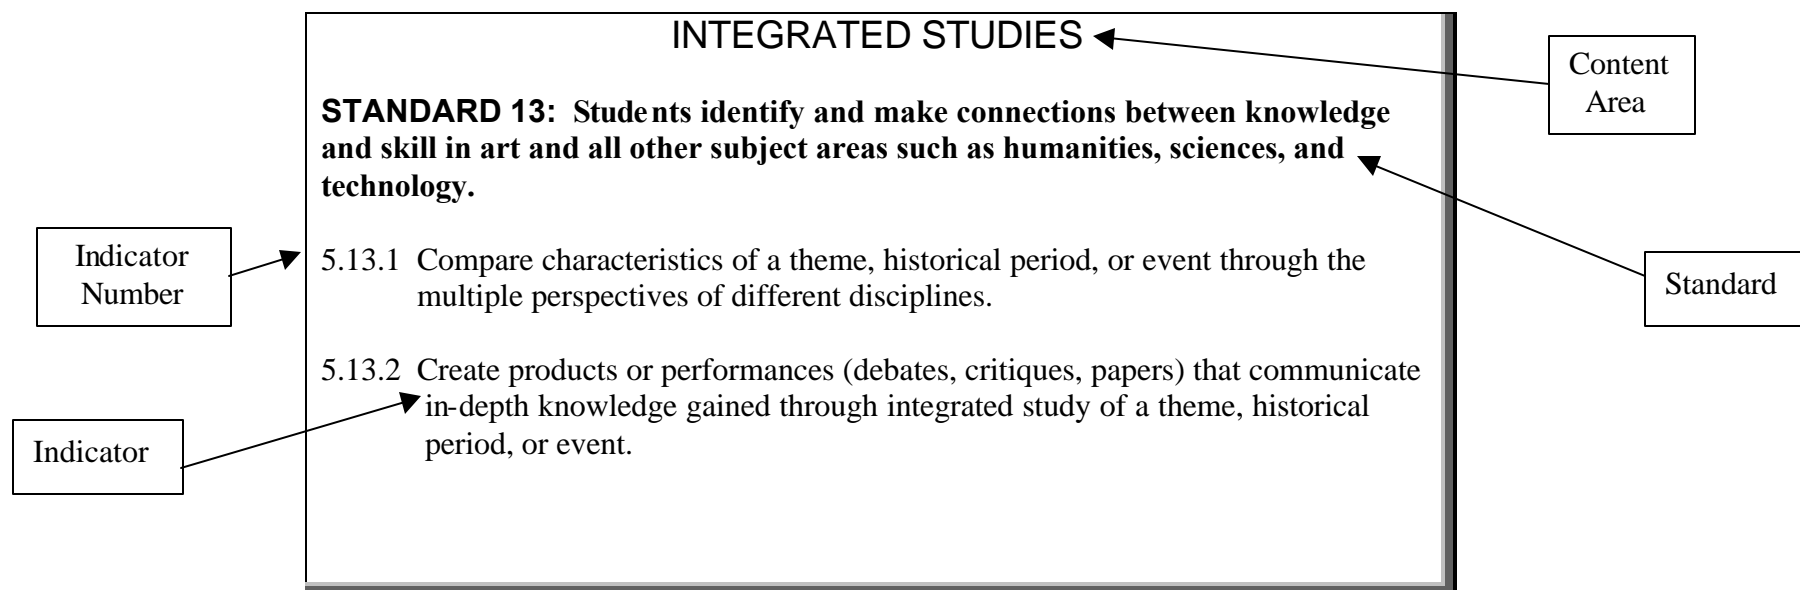

- ILS 7: **recognizes the importance of information in a democratic society**.
- ILS 8: **practices ethical behavior** in regard to information and information technology.
- ILS 9: participates effectively in groups to pursue and generate information (**shares and collaborates**).
